## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 17 is rejected under 35 U.S.C. 102(b) as being anticipated by Derwent (DT 2450537 A1). The Derwent application discloses a ice making system comprising: an evaporator of a refrigerator immersed in the top of a tank of water whereby a "ice block" form on them. Furthermore a cooling coil is located at the bottom of the tank structure and a support grid for keeping ice blocks within position.

### ***Allowable Subject Matter***

Claims 1-16 are allowed over the prior art of record.

### ***Response to Arguments***

Applicant's arguments, see amendment page 3, filed June 14, 2004, with respect to the rejection(s) of claim(s) 1-5,7,8,12,16 & 17 under U.S.C. 103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Derwent (DT 2450537 A1).
